Gift Cards

Gift cards similar to those illustrated on this page are available based on each of the pictures in the following pages. The picture appears on the front of the card; and on the back is a brief description of the painting, its location or symbolism as appropriate, and a photograph and brief biography of the artist.

There are two series of cards. One series as shown at the top have a blue and gold border on both the front and back of the card. The other series which is slightly taller has a borderless reproduction of the painting on the front, and a gold flax weave pattern border on the back.

The inside pages of the cards are blank permitting the purchaser to write their own notes and messages inside them. As illustrated cards are available in both vertical and horizontal formats depending on the shape of the picture on which they are based.

All cards come with an envelope and are individually packaged in plastic bags

These full picture cards are larger (155mm x 112m) —>

Some landscape, some portrait depending on the original painting.

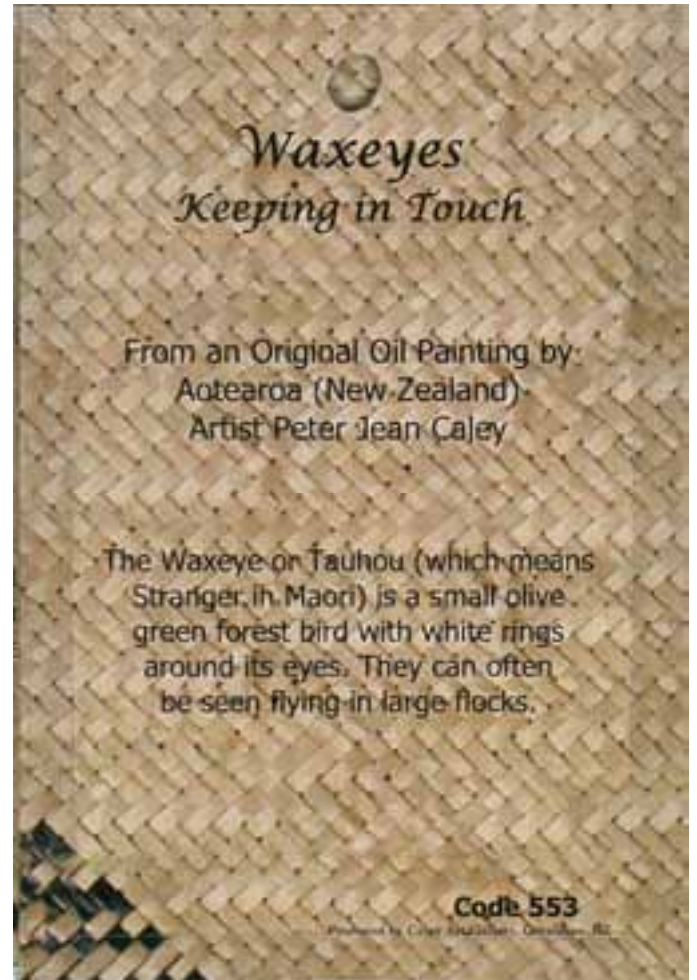

This is a sample layout.

Fridge Magnets

Front View of Mounted Magnet

Back View

Actual size of magnets is 62mm x 50mm.
These come on a card with picture details on reverse and are in a moulded plastic wrap.

There are 24 different patterns of magnets available as indicated on the following pages

Giclees

Giclees (pronounced jee-clays) are a high quality art print produced using ink-jet technology with high quality oil based inks on high quality stretcher canvasses. They are available in a range of sizes all of which accurately reproduce the original form of the painting, and so the actual dimensions will vary slightly from the standard sizes which are used in the catalogue.

Standard Giclee sizing is based on the following codes:

1. G1 or GA = Actual Size, indicates that the painting is available in a larger size
2. G2 = approximately A2 - 600 x 440 mm (24x18")
3. G3 = approximately A3 - 420 x 300 mm (18x12")
4. G4 = approximately A4 - 10" x 12" (250 x 300 mm)
5. G8 = 8" x 10" (200 x 250 mm) the full size of the small bird paintings
6. G6 = 6" x 8" - the full size of the Gourd and Healing Tiki paintings

Paper Prints

A full range of paper prints is produced in a range of sizes. These prints are printed on high quality matt paper suitable for mounting and framing behind glass. They use the latest printing inks, which the manufacturers claim to be fade resistant for in excess of a century.

These prints are produced in a set of standard sizes based on the international (metric) sizes, which involves minor cropping of most of the paintings. For those paintings where this results in loss of a significant amount of detail, there are special prints available in non-standard sizes which preserve the full details of the original paintings

Table of Dimensions for Standard Fine Art Prints
